

Contents

1	Introduction	1
1.1	The Turing Test for Intelligence	1
1.2	Main Areas of AI	2
1.2.1	Nine Ultimate Goals of AI (Lenat & Feigenbaum)	3
1.3	References	3
2	Natural Language Understanding	4
2.1	Eliza	4
2.1.1	Prolog Implementation	6
2.2	Beyond ELIZA — PARRY	7
2.2.1	Example — strongly paranoid model	7
2.2.2	Tests on PARRY	8
2.3	Student (Bobrow MIT '64)	9
2.3.1	examples	9
2.3.2	Keyword Replacement	9
2.3.3	Example	10
2.4	Sir	11
2.5	Lifer	12
2.5.1	Queries for Lifer	13
2.6	Other Systems	15
2.6.1	Artificial paranoia	15
2.6.2	SHRDLU	15
2.6.3	Lunar	15
2.6.4	Chat80	15
2.7	Complexity of Semantics of Natural language	15
2.8	Conceptual Dependency	16
2.8.1	Scripts	17
2.8.2	SAM	18
3	Definite Clause Grammars for NL	21
3.1	Simplest Form	21
3.1.1	Example	21
3.2	More Complex Examples	24

3.2.1	Example	24
3.2.2	Example	26
4	One person games & problem solving	27
4.1	Some small examples	27
4.1.1	Example 1: (3-puzzle)	27
4.1.2	Example 2: (Cryptarithmic)	28
4.1.3	Example 3: (The fox,hen & corn problem)	28
4.2	Tree searching algorithms	29
4.3	Tree searching algorithms & Heuristics	30
4.3.1	Algorithm A^T (the tree algorithm)	30
4.3.2	Algorithm A^*	30
4.3.3	Example	32
4.3.4	Example	32
4.3.5	Exercise	33
4.4	Generate & Filter	34
4.4.1	Example	34
4.4.2	Abstract View of Generate and Filter Technique	34
4.4.3	Examples	35
4.4.4	Exercises	36
4.5	Two person Games	38
4.5.1	Nim	38
4.5.2	Mathematical Treatment	38
4.6	Grundy's Game	40
4.6.1	Example	40
4.6.2	Example	40
4.7	Mini-Max Method	41
4.8	Alpha-beta Pruning	41
4.9	Prolog Code for Mini-max	42
4.10	Logic Puzzles	44
4.10.1	The Zebra Puzzle	47
4.11	Analogical Reasoning	48
4.11.1	Example	48
5	Meta Programming & Explanation Based Generalisation	50
5.1	Meta Interpreters	50
5.2	Explanation based generalisation	53
A	Applications of CYC	i
A.1	Natural-Language Processing	ii
A.2	Integration of Heterogeneous Databases and Data Mining	iii
A.3	Knowledge-Enhanced Searching of Captioned Information	iv
A.4	Thesaurus Management	vi

A.5	Distributed AI	vi
A.6	WWW Information Retrieval	viii
B	Korf's Optimal Solution to Rubik's Cube Puzzle	i
C	State of the Art Game Playing Programs	i
C.1	Introduction	i
C.2	Chess	i
C.3	Draughts	ii
C.4	Bridge	ii
C.5	Scrabble	iii
